

Coriander Margaritos

Coriander isn't one of the traditional cocktail ingredients but its bright, zesty flavour makes a great combination in our Coriander Margaritos – a cross between a mojito and a margarita!

For each glass:

- 1 heaped tbsp torn coriander leaves
- ½ a lime cut into quarters
- 1 heaped tsp brown sugar or more to taste
- 50 ml Tequila
- Sparkling or soda water

To serve:

- In a tall glass, muddle together the coriander, lime and sugar until the juices are released.
- Stir in the tequila then 3/4 fill the glass with ice.
- Top up with sparkling water and enjoy!
