Catmint Baby Cat

Nepeta faassenii 'Baby Cat'

Height: 30 cm

Spread: 30 cm

Suitable for: Sunny position in most soils. Containers, edging, rock gardens, small scale ground cover.

Summary: This is a very compact and low growing catmint. The blue green foliage is small and on short shoots, with the typical lavender blue flowers in mid summer. Ideal for planting in containers and small beds. A very popular plant with cats!
